

CORSAIR AVIATION

7900 BALBOA BLVD. #H1, VAN NUYS, CA 91406 | (818) 906-4024 | CORSAIRAVIATION@OUTLOOK.COM

Welcome to Corsair Aviation! Established in 2012, we are a full-service flight school and aviation company. We are located in Southern California at the Van Nuys Airport; home of one of the busiest general aviation airports in the world. It is a hub for business aviation in the LA area flying celebrities, executives and politicians around the world. We offer services including flight training, aircraft rental, air charter & tours, aerial film & photography as well as much more.

Come tour our beautiful facility at the Park VNY and enjoy its luxurious accommodations and community atmosphere. With a large modern classroom, refreshment area, and comfortable pilot lounge our facility promotes an excellent learning environment for our students. Our professional and welcoming staff are dedicated to customer service and ensuring your highest expectations are exceeded.

We operate a diverse fleet of modern glass panel aircraft with state-of-the-art avionics, which are maintained to the highest safety standards. As one of the few factory approved Cessna Pilot Centers (CPC) in the Los Angeles area, we are partnered with Cessna to offer unparalleled flight training. Experience the freedom of flight on one of our tours or take the first step at becoming a pilot with a special introductory flight lesson. Come fly with us!

BASIC RENTAL REQUIREMENTS / POLICIES

Corsair Aviation requires all students and renters obtain Non-Owned Aircraft Insurance (Renter's Insurance) for the make and model of aircraft to be rented. Minimum requirements: \$50,000 aircraft damage liability limits.

We recommend Avemco Insurance Co. (www.avemco.com/ca42)

Each rental aircraft requires individual checkout by one of our instructors.

Fuel purchased elsewhere will be reimbursed at the rate paid or current at VNY, whichever is less.

Daily minimums may be applicable. (Rental Period: 4-8hrs 3hr weekend/2hr weekday, 8-24hrs + 3hr, 24-48hrs + 3hr)

AIRCRAFT RENTAL PERIOD LIMITED TO MAXIMUM 48 HOURS

RATES ARE SUBJECT TO CHANGE WITHOUT PRIOR NOTICE – RENTAL RATES REFLECT 4% CASH DISCOUNT

CESSNA FLIGHT TRAINING SYSTEM

Take flight with the best flight-training program in the industry! With decades of experience, Cessna Pilot Centers have taught more pilots than any other flight school in the country. Our fleet of instructional aircraft are equipped with state-of-the-art glass cockpit avionics and were specifically designed to take you from student to pilot. The Cessna Flight Training System includes an industry leading home study course specifically designed around scenario based training. The interactive instruction program works cooperatively with your actual flight experience, preparing you for your next flight before you even leave the ground. Come fly with us, we teach the world to fly!

Sport / Private Pilot Course

Have you dreamt of becoming a pilot? Make it a reality! Cessna proudly announces an all new scenario-based flight training course, developed exclusively for Cessna by the experts at King Schools. This web-based course provides everything you need to obtain your Sport or Private Pilot Certificate. It's been designed to provide you with the knowledge, skills and confidence to embrace your future in aviation.

Instrument Course

You planned a great trip to an exciting destination—but travel day turned up overcast and drizzly. You canceled because of weather, again—if only you had your Instrument rating. Now, Cessna Pilot Centers make it easier to accomplish that challenging goal, with a comprehensive program that is rewarding—and downright fun! Once you obtain your Instrument rating, you'll be a safer, more competent pilot. Unexpected clouds will become less daunting, and you'll enjoy flying more—even in VFR!

Commercial Pilot Course

Even if it's not your career goal to be a professional pilot, the skills you will learn in earning your Commercial Pilot Certificate will make you a more skilled and capable pilot. This training course will teach you the substantial skills and knowledge you need to be certified by the FAA to carry passengers and cargo for hire.

CFI Course

You'll learn all the subject areas you need to become a knowledgeable and confident flight instructor. You'll pass the FAA CFI exams with ease as you'll be up-to-date with the most current information the FAA wants you to know.

CPC students earn their wings about 30 percent faster than the national average!

Transportation Security Administration (TSA) Rule

All Student Pilots

Students are required to prove United States citizenship before taking any flight training. The proof must be an original **Birth Certificate**, a **Valid US Passport** or other **Federal Government-issued proof of citizenship**.

Flight Training for Aliens

All non-US citizen aliens must be cleared by the Transportation Security Administration (TSA) first in order to initiate flight training. Candidates can obtain a TSA clearance by applying online at www.fts.tsa.dhs.gov.

Candidates must provide:

- **Full Name** (including any aliases)
- **Date of Birth**
- **Copy of current, unexpired Passport and Visa** (This may also include all the previous passports and visas held by the candidate and all the information necessary to obtain those).
- **Country of Birth** (Current & previous country/countries of citizenship)
- **Candidates' Dates of Training**
- **Candidates' Location of Training**
- **Candidates' Type of Training**
- **Any Current Pilot Certificates and or Type Rating(s)**
- **Candidates' Finger Prints** (When instructed by TSA)
- **Candidates' current Address & Phone number(s)** (Also the address for the prior five years to the date of the application)
- **Candidates' Gender**
- **The Application Fee**

Flight School must provide:

- A **Photograph** of the candidate taken when candidate arrives at the flight school for flight training.

49 U.S.C. 44939 and 49 CFR part 1552 prohibits a U.S. flight school from providing flight training to a Non-U.S. Citizen unless the alien has submitted certain information to the Transportation Security Administration (TSA), and TSA has determined that the Non-U.S. Citizen does not pose a threat to aviation or national security.
